## PROFILE

I'm a self-taught front-end developer who has always found coding intuitive and is highly driven and self-motivated. My current focus is to write reusable and maintainable code and build highly scalable web apps.

## PROJECTS

### Weather App

A weather app that shows current weather for a city. Built using React and OpenWeatherMap API.

### Tic Tac Toe

A fun AI-based game that uses the minimax algorithm to make decisions against a human player. Built using HTML, CSS and JavaScript.

### Memory Game

A simple memory card game built using React and Bulma CSS. All of my projects are on my portfolio and my git hub page
